DUTPOST

WILD CARD

TRITIANIAM DEPOSITS WILD CARD

**EMERGENCY REINFORCEMENTS** 

WILD CARD

Components: 2 Outpost Tokens

Setup: After placing obstacles, each player places 1 outpost token ( T ) at range O of an obstacle. Obstacles may have 1 or fewer Tat range 0.

Combat: While a ship defends at range 1 of an obstacle with a outpost token, that ship may convert a 👁 to an 🐧 result.

The range of detonating bombs is increased by 1.

Setup: Before placing forces, each player chooses 1 small or medium ship and places it in reserve.

After a friendly ship was dealt a damage card, you may place a ship from your reserve within range 1 of any board edge and beyond range 3 of any enemy ship.

FRACTURED SENSORS

WILD CARD

UNSTABLE FUEL

WILD CARD

PROBING PROBLEM

Components: 4 Objective Tokens, 4 matching Objective Cards

When a ship locks, it cannot acquire locks on ships obstructed by obstacles. attack die. On a \* result, the ship suffers one \* damage.

When a ship moves through or overlaps a gas cloud, it must break all of its locks and all locks on it.

After a ship is destroyed, every ship at range O-1 rolls 1

Setup: Each player places 2 objective tokens representing probes within range 2 of their player board edge and beyond range 3 of another probe.

System Phase: Each probe recovers 1 shield. Probes relocate using speed 1 or 2 bank ( 7 7) or straight (†) templates.

Combat: At initiative O, probes may choose a ship at range O-1. That ship gains a strain token and rolls 1 attack die. On a \* result, it gains 1 stress token.

Probes: Each objective token is considered as a remote that can be targeted by primary weapon attacks after round 3. When a player destroys a probe, that player gains 30 points.

Probes have a hull value of 4, an agility value of 2 and a shield value of 1.

### **EMPLACEMENTS**

BLACK BOX SCENARIO

### SCENARIO

VIP

Components: 4 Objective Tokens, 4 matching Objective Cards

Components: 4 Objective Tokens

Components: 3 Pairs of Objective Tokens, 3 Pairs of matching Objective Cards

Setup: After placing obstacles, starting with the second player, each player places 2 objective tokens representing defensive batteries. Defensive batteries must be placed within range 3 of the controlling player's board edge and beyond range 2 of another defensive battery.

Combat: Defensive batteries cannot modify their attack dice. While defending, defensive batteries are always considered to be reinforced.

Scoring: After calculating scores, each player gains 30 points for each defensive battery they destroyed.

Defensive Batteries: Each objective token is considered as a remote that can be targeted by attacks. Defensive batteries attack at initiative O and can fire at any ship within range 2-3.

Defensive batteries have a hull value of 5, an agility of 0 and a primary weapon value of 3. When attacking, range bonuses are not applied.

Setup: After obstacles are placed, each player places 2 objective tokens within range 2 of their player board edge and beyond range 3 of another objective token.

End Phase: Ships within range 1 of an opponent's objective token remove the objective token unless there is an enemy ship within range 1 of that token.

Scoring: After calculating scores, each player gains 30 points for each objective token claimed.

Setup: 3 Pairs of Objective Tokens and Obective Cards.

After placing forces, each player assigns each of their 3 objective cards ( /, 🕏 , « ) face-down to one or more of their ships. Assign the associated objective tokens face-down to those ships as a reminder.

The Lightsaber ( 🎤 ) token must be assigned, its carrier may not be placed in reserves.

After a ship with an objective token is damaged, reveal its objective card. If the 🖋 objective card is revealed, place 2 evade tokens on it. While the ship with the 🎤 objective card attacks or defends, it may remove up to two evade tokens from that card to gain that many matching tokens.

Scoring: If the ship equipped with the  $\ensuremath{\mathscr{I}}$  objective card is destroyed, the opposing player gains 50 points.

### ASTEROID FIELD

ENVIRONMENT

Obstacles: 10 Asteroids

Setup: Obstacles may be placed within range 1

of each other and at range 2 of the neutral board edges.

CONJOINED

ENVIRONMENT

Obstacles: 8 Obstacles

**Setup:** After a player places an obstacle, they must place a second obstacle touching that obstacle.

NEBULA

ENVIRONMENT

**Obstacles:** 5 Gas Clouds, 3 Non-Asteroid Obstacles

**Setup:** After the second obstacle is placed, any additional obstacles must be placed within range 1-2 of another obstacle and beyond range 3 of the player board edges.

Obstacles may be placed at range 2 of the neutral board edges.

## OLD WRECKAGE

Obstacles: 3 Asteroids, 5 Debris Clouds

Setup: Asteroids must be placed first.

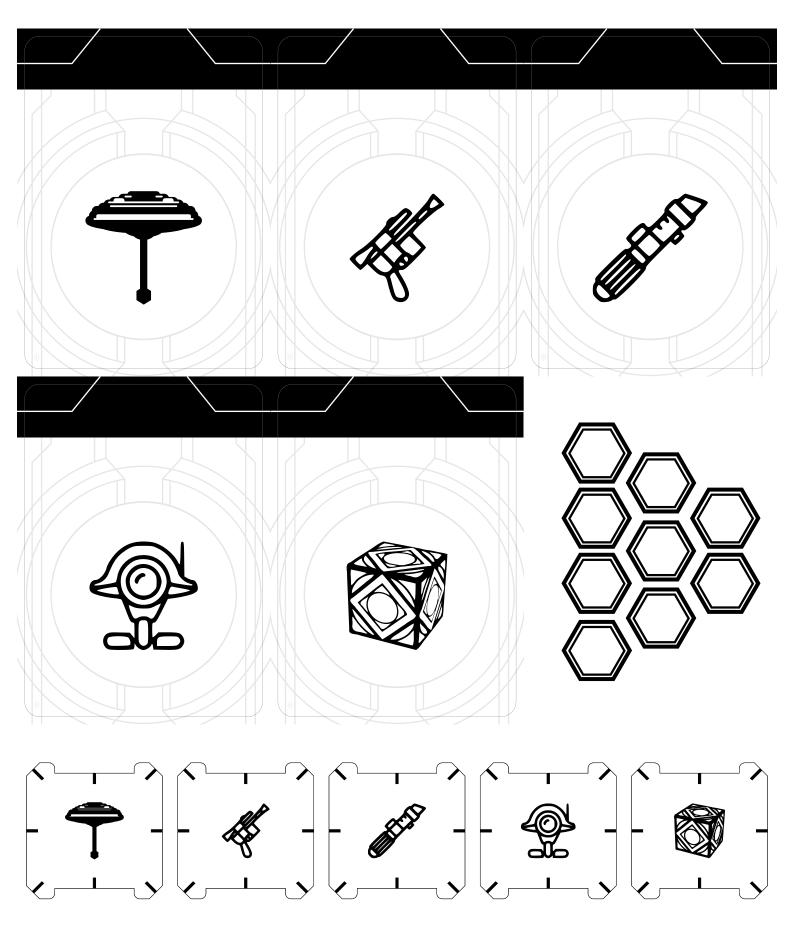

All asteroids after the first one must be placed within range 1-2 of other Asteroids.

Debris Clouds must be placed touching an Asteroid and may be placed at range 1 of other Debris Clouds. They may be placed at range 2 of the neutral board edges.

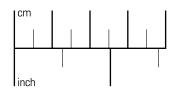

PLANETARY RING

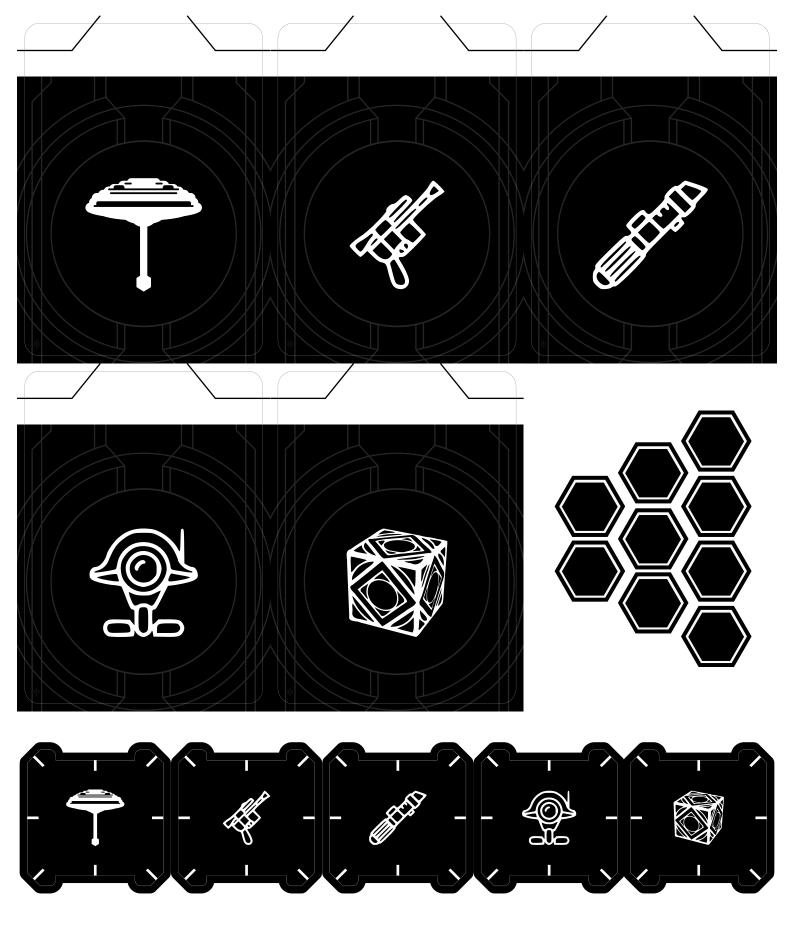

Obstacles: 8 Obstacles

Setup: Obstacles must be placed beyond range 3 of the player board edges and range O of the neutral board edges.
