

OUTPOST

WILD CARD

SETUP: After placing obstacles, each player places 1 outpost token ($\widehat{\uparrow}$) at range 0 of an obstacle. Obstacles may have 1 or fewer $\widehat{\uparrow}$ at range 0.

COMBAT: While a ship defends within range 1 of an obstacle with a Claim Token, that ship may convert a to an ? result.

ASTEROID FIELD

ENVIRONMENT

DBSTACLES: 10 Asteroids.

SETUP: Obstacles may be placed within range 1 of each other and at range 2 of the neutral board edges.

TRITIANIAM DEPOSITS

WILD CARD

The range of detonating bombs is increased by 1.

EMERGENCY REINFORCEMENTS

WILD CARD

SETUP: Before placing forces, each player chooses 1 small or medium ship and places it in reserve.

After a friendly ship was dealt a damage card, you may place a ship from your reserve within range 1 of any board edge and beyond range 3 of any enemy ship.

FRACTURED SENSORS

WILD CARD

When a ship locks, it cannot acquire locks on ships obstructed by obstacles.

When a ship moves through or overlaps a gas cloud, it must break all of its locks and all locks on it.

UNSTABLE FUEL

WILD CARD

After a ship is destroyed, every ship at range 0-1 rolls 1 attack die. On a \divideontimes result, the ship suffers one \divideontimes damage.

PROBING PROBLEM

SCENARIO

SETUP: 4 Objective Tokens, 4 matching Objective Cards. Each player places 2 objective tokens representing probes within range 2 of their player board edge and beyond range 3 of another probe.

SYSTEM PHASE: Each probe recovers 1 shield. Probes relocate using speed 1 or 2 bank (7 7) or straight (†) templates.

COMBAT: At initiative O, probes may choose a ship within range 0-1. That ship gains a strain token and rolls 1 attack die. On a * result, it gains 1 stress token.

PROBES: Each objective token is considered as a remote that can be targeted by primary weapon attacks after round 3. When a player destroys a probe, that player gains 30 points.

Probes have a hull value of 4, an adility value of 2 and a shield value of 1

EMPLACEMENTS

SCENARIO

SETUP: 4 Objective Tokens, 4 matching Objective Cards. After placing obstacles, starting with the second player, each player places 2 objective tokens representing defensive batteries. Defensive batteries must be placed within range 3 of the controlling player's board edge and beyond range 2 of another defensive battery.

COMBAT: Defensive batteries cannot modify their attack dice. While defending, defensive batteries are always considered to be reinforced.

SCORING: After calculating scores, each player gains 30 points for each defensive battery they destroyed.

DEFENSIVE BATTERIES: Each objective token is considered as a remote that can be targeted by attacks. Defensive batteries attack at initiative 0 and can fire at any ship within range 2-3.
Defensive batteries have a hull value of 5, an agility of 0 and a primary weapon value of 3. When attacking, range boni are not applied.

BLACK BOX

SCENARIO

SETUP: 4 Objective Tokens.

After obstacles are placed, each player places 2 objective tokens within range 2 of their player board edge and and beyond range 3 of another objective token.

END PHASE: Ships within range 1 of an opponent's objective token remove the objective token unless there is an enemy ship within range 1 of that token.

SCORING: After calculating scores, each player gains 30 points for each objective token claimed.

SETUP: 3 Pairs of Objective Cards.

After placing forces, each player assigns each of their 3 objective cards (\mathscr{N} , \mathfrak{A}) face-down to one or more of their ships.

The / marker must be assigned, its carrier may not be placed in reserves.

After a ship with an objective marker is damaged, reveal its objective card. If the \mathscr{S} objective card is revealed, place 2 evade tokens on it. While the ship with the \mathscr{S} objective card attacks or defends, it may remove up to two evade tokens from that card to gain that many matching tokens.

SCORING: If the ship equipped with the **/** objective card is destroyed, the opposing player gains 50 points.

ENVIRONMENT

DBSTACLES: 8 Obstacles.

SETUP: After a player places an obstacle, they must place a second obstacle touching that obstacle.

<u>NEBULA</u>

ENVIRONMENT

DBSTACLES: 5 Gas Clouds, 3 Non-Asteroid Obstacles.

SETUP: After the second obstacle is placed, any additional obstacles must be placed within range 1-2 of another obstacle and beyond range 3 of the player board edges. Obstacles may be placed at range 2 of the neutral board edges.

DLD WRECKAGE

ENVIRONMENT

DBSTACLES: 3 Asteroids, 5 Debris Clouds.

SETUP: Asteroids must be placed first. All asteroids after the first one must be placed within range 1-2 of other Asteroids. Debris Clouds must be placed touching an Asteroid and may be placed at range 1 of other Debris Clouds. They may be placed at range 2 of the neutral board edges.

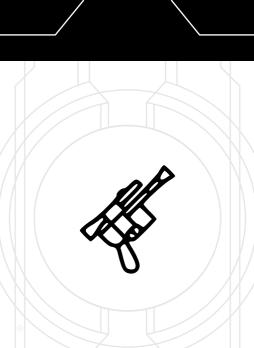

PLANETARY RING

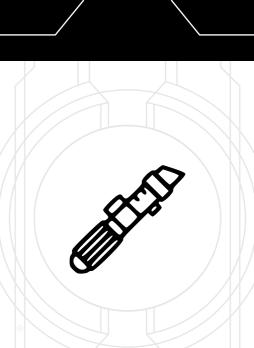

ENVIRONMENT

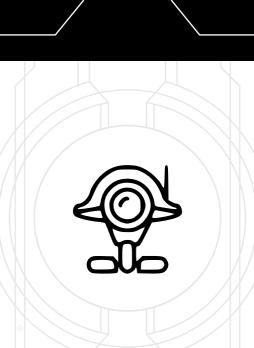

DBSTACLES: 8 Obstacles.

 $\textbf{SETUP:}\ \mbox{Obstacles}$ must be placed beyond range 3 of the player board edges and range 0 of the neutral board edges.
